Had Pring Landed Wire Report.

adis Bereau of Africalisticate

WEDNESDAY, AUGUST 4, 1920.

Those bandits that terrorized Moline were bold and audacious as a gang of war profiand likewise they got away with it.

Pancho Villa said that he surrendered beset the country needed "peace for reconetion." He said nothing about the piece of ney he himself received for surrendering.

That Muncle barber who is suing to res17.000 he invested in some stocks, no at is one of those who were forced to put arice of haircuts up to 50 cents in order to

Los Angeles comes to the front with a story show that those quakes were a municipal et as they disclosed two hitherto unknown mense deposits of oil right under the cityother words Los Angeles has struck oil.

it is claimed the increased freight rates auted the railroads, will increase the cost of lying to the average individual one dollar per ay. Is this on the square, or is somebody paring the public for another little holdup! Whatever it is the public will pay.

#### The Tree Pest.

Remember the tussock moth that made its pearance in the trees of Rock Island a few are ago, working such havoe in its insidious slaught, that finally a reward was offered boys who would help destroy the pest by inging in the cocoons? It is here again, and se who are not indifferent to the beauty of he trans that are so much to Rock Island had better stir themselves, or it may be found too ate, that thousands of them have been ruined. in Chicago the papers are appealing to the ale to save the trees which are spoken of as of the city's chief charms, and to take uniform stand such as will result in comping out the peet that has already wrought "A tree cannot be grown in a month or a but requires years to attain its full will be soon if something is not doneso's chief beauty will be gone. One need take a short walk through our pretty ts to see the gradual effect on the treesleaves eaten, dead branches, and in many ances, the bark gone. Property owners ald do much by destroying the moths that in cocoons, and it would be well worth the erts of the Tribune to arouse the interest of

The Tribune, commenting on the subject.

THE

JACK'S BLUNDER. By Mabel Rich.

Syndicate, Inc.)

right, 1920, by The Wheeler

Chicago's only claims to beauty lie in s location on the lake shore, and in its trees. The location is permanent. It could

ed for or they dis, studies that they are not and residents here they write to the city forester or to s and tell about it. There

Our trees are subject to ests such as scale, gyper moths, cater-illars, and various insidious tree diseases. To combat these posts and proserve the trees is a task beyond the powers of the city forester and his outside staff of a foreman and six laborers. It is physically impossible for them to spray and doctor all our alling trees. The citizens who are interested in shady streets and beauty in general, abould help. Information as to how to help is available at the office of the city forester. It is an opportunity for service which will pay largest dividends.

What applies to Chicago is equally true of Fock Island, whose trees have been the subect of many compliments of visitors here as well as always a source of admiration and com-

fort to our own people, The pest is upon them, and will soon destroy them. What will be done?

#### Flivvering After Criminals.

Yesterday's daring bank robbery in Moline and the subsequent flight of the yeggmen through Rock Island into the country, where their trail was lost by pursuing police, graphically illustrates that the authorities of law must be supplied with the most efficient tools optainable in order to compete with 1920 criminals.

The robbers disappeared in a high-powered car, and the Rock Island and Moline officers endeavored to trail them in small, light machines. Seeing that such a chase would be fruitiess, Chief Cox commandeered a big, powerful machine, but by that time the yeggmen had nearly an hour's lead.

The police department should have a speedy, armed car at its disposal at all times. It should also be equit . " with high-powered riffes and riot guns.

If men are willi chase and battle w. ags such as commit ted in yesterday's contact they should at least he able to meet them on even terms. At hest they had a desperate job but from the start practically precluded all possibility of success.

Give the police officials tools to work with and then hold them accountable . . . But don't blame them if they can't make a 4-cylinder flivver catch as 8-cylinder speed demon in cross country, hill-and-dale chase,

It can't be done.

#### The Public Pays, of Course.

The interstate commerce commission, by racting a rate increase on the present volume of traffic, passes on to be paid by the public the wage increases of \$1,500,000,000 a year.

The railroads still labor from other ineased costs of operation, but are allowed 6 per cent on a valuation of \$18,900,000,000, and over this the great and anxious army of owners of railway securities may greatly rejoice.

It is now possible to do something to build up the railroads and to stop the recurrent congestions which intimately affect the prosperity and child. Other money now brings more than 6 per cent, but the interest rate will not forever keep at its present level. Confidence is the chief thing, and if investors can be persuaded that their principal will be respected, the railroad betterments can be financed.

The new rates are not agreeable to pay. They drive another nail in the coffin of the hope that the cost of living is to fall. Taking the country as a whole, there is to be an addition of \$15 per head, or \$60 to \$75 per family.

The public pays. It always pays. Yet some deluded themselves by running after the phantom that only the owners of railway property

THE LIES MANS ANCIENT ENEMY HO DISINTERS THE UNLOVED CUSS,

BALLADE OF PETTY ACCIDENTS. (From "The Coming Tower").

Oh, many times I've smashed a thumb
While nailing carpets in the shack.
I'd raise the hammer, and by gum.
I'd give myself an awful crack!
One day I nearly broke my back
While in the bathtub I was laving.
But say! Would you believe it, Jack!
I've never cut my ear while shaving!

Once I was almost stricken dumb When in the night—'twas Stygian black— bumped my head, and "Kingdom Come!" They took me home within a hack.
Ah, oui, I've sat upon a tack;
I've even slipped on icy paving.
But listen, fellows, it's a fac'

I've never cut my ear while shaving!

I've sprained my wrist and ankle some While sprinting on the running track; in trying to regain the pack. A cinder from a chimney stack
Has often left me blindly raving.

But this experience I lack: I've never cut my ear while shaving!

Prince, I exult, with joy I clack;
My little flag I'm wildly waving,
For (let me on the table thwack) I've never cut my ear while shaving

WE do not recall ever cutting our ear while shaving, either. But many another portion of our classic phiz has been mutilated—and by a c. safety razor, at that. Why do they co safety razors? But perhaps we shouldn't blame the razor, since our facial landscape resembles the rockribbed hills and dales of certain portions of the "show-me" state

Bugville Society Note. (From the Davenport Times).

An Unspeakable Speech.

Chicago, III., Aug. 2.—The ladies, slang and respects his vowels and Chicago, Ill., Aug. 2.—The ladder "ing's" usually has his life made a of Chicago are out to save our burden by his school mates. The language. English in America, it girl who uses a cultivated accept in rally. We are in danger of becoming absolutely inarticulate. But not ing absolutely inarticulate. But not if those storm centers of militant if those storm centers of militant culture, the Women's clubs, can help it. The Illinois rederation of language of the underworld," may lican speech committee, and it has launched a movement, or perhaps launched a movement, or perhaps their characters is far-reaching and to purge our national speech of the soon induces a cheap vulgar and the purge our national speech of the launched and the mind. It is but a step from laxity of speech to laxity of moralisms of our grandmothers may

There are many who hope that the ladies will deal mercifully with slang. It is by slang that our language grows and becomes our language grows and becomes our own. By its slang you may surely know that it is a live language. As for grammar, if the ladies can do anything to drive it into the academic-confines where it is supposed to stay, they deserve applause. Some of the popular changes in the school book grammar are logical and effective, to be sure, but many are merely alipshod. And a certain amount of agreement in grammar is undoubtedly a help to human intercourse.

Think of our grandmothers mean to mean of our intended and the shimmy for instance. Mrs. Robbins shuddered and changed the subject.

"It is not only for the sake of our children that we should work for better speech," she continued to stay, they deserve applause.

"We have a certain responsibility for our foreign population.

"Besides making the foreigner a better citizen, better speech will give him a ficher life, by giving him a finer means of self-expression. The Lithuanian girl who lost her coat in a hospital during the recent epidemic gave a pathetic ar-

cent Americans are back of the vocabulary. For three days she club women. Let us by all means wandered up and down the hospital learn to open our mouths and halls mouning, Gee, ma plusha speak out. Let us park our chew-coata, Ge ma plusha coata ing gum before we begin to converse. Let us give our great lan- America guage the full melody of its sonor- feeling.

Think of having a bell hop page girl. 'Cute, swell, and fierce' seem you, a train announcer call trains, to be the only three adjectives in to sten able tones. The morale of the whole nation would move up several degrees, nerves would relax, would appear, courtesy would be sweet and lovely.

The better speech movement has already accomplished much in the one year in which it has had the help of the Illinois Women's clubs. idea is to get the schools, churches and big stores to cooper-ate with the clubs in a well-organreasonable amount of alcohol to ized campaign against slangy and an aid to efficiency. Among these slovenly diction. The campaign is is the Marshall and lisey bank of usually introduced by holding a Milwaukee. For three years they have held classes in grammar and week posters made by the artists. and school children of the town appear in prominent places, bear ing such slogans as "Good English Can Never Die, Don't Try to Mur-der it!" "Better Speech for Better Speech Means Poor Wages." Ministers aid the campaign by making addresses on the subject. Shop keepers urge their employes to respect their set young women to read, talk over mother tongue. And of course the and finally study the best in literamother tongue. And of course the schools are most active. The chil- ture," says Mr. Puelicher, president dren sign pledges promising to of the bank. "They are enthusiastic speak the language beautiful, they about them and agree that they degive allegorical plays showing the awful fate of slang slingers, they Does the bank? Well, imagine a organize "Do Without Clubs," in stenographer with a real interest in which each member agrees to do 'Aw, cut it out." where the school children were al-The Persian no- lowed to fine all offenders against grammar their activities netted the big truths, that they may be
